VIBRION was formed in mid 1989 in Buenos Aires, Argentina with the goal of achieving a personal mixture of hardcore, death metal and grindcore. They have been playing energetic gigs for audiences in Buenos Aires and suburbs for the past two years. VIBRION recorded two songs in mid 91 but they didn't have enough money to self-finance it and decided to record more songs in a better produced work. In November 1992 VIBRION recorded their first release "Erradicated Life" which sold 600 copies in three months only in Argentina and takes the interest of several labels from all over the world. "Erradicated Life", recorded in a 24 track studio in 35 hours is now available in 7"EP format through Witchhunt Records.
