SADNESS

The CD *-Ames de Marbre-* de SADNESS was issued in October 1993.

A true selection of sadness and beauty. *-Ames de Marbre-* propels the human being into another world, a parallel world!

With a tint of black velvet and mystical strength, this CD will allow you to discover the hidden faces of your inside torments.

End of 90 's, in the penumbra of a night, when obscurity spreads its dark cape, when winter numbs our limbs and when time seems to stop, two souls, CHIVA and GRADEL, mad about dark chasm, meet together...

Already, some pernicious waves start to show through. Then STEFF and ERIK strike up to create a single mass... SADNESS was born !!!

*This horde, united as the four shanks of a cross, effected eight months later, their first demonstration tape called *-Y-*.*

*Stamped with power and obscure strength, this *-demo-* was sold in 500 copies and distributed under labels such as *-Osmose Production-* or *-Holy Record-*.*

Then, the doors of the underground opened. Later on, ERIK decided to leave SADNESS to join ALASTIS.

Then SADNESS chose a new bass player : ANDY. So STEFF took ERIK's place for the singing part in order to give vocals a feeling of death, dream and obscurity.

*Eight months later, *-EODIPUS-* come forth both powerful and melancholy. Owing to the help of precious underground labels, *-EODIPUS-* was sold out very quickly (1000 copies).*

*Then SADNESS produced several concerts in Poland, in France and in Switzerland. SADNESS finds its way with *-Witchhunt Record-*, a company from Zürich, produced several groups like MAYFAIR, BLUURGH and XERSES.*
